

Multiplikation:

$$\frac{3}{7} * \frac{12}{9} = \frac{1}{7} * \frac{4}{1} = \frac{4}{7}$$

$$\frac{17}{16} * \frac{22}{7} = \frac{17}{8} * \frac{11}{7} = \frac{187}{56} = 3 \frac{19}{56}$$

$$\frac{13}{33} * \frac{44}{41} = \frac{13}{3} * \frac{4}{41} = \frac{52}{123}$$

$$\frac{41}{123} * \frac{12}{19} = \frac{41}{41} * \frac{4}{19} = \frac{1}{1} * \frac{4}{19} = \frac{4}{19}$$

$$\frac{55}{78} * \frac{33}{5} = \frac{11}{78} * \frac{33}{1} = \frac{11}{26} * \frac{11}{1} = \frac{121}{26} = 4 \frac{17}{26}$$

$$\frac{14}{42} * \frac{39}{13} = \frac{14}{42} * \frac{3}{1} = \frac{1}{3} * \frac{3}{1} = \frac{3}{3} = \frac{1}{1} = 1$$

$$\frac{91}{13} * \frac{3}{7} = \frac{13}{13} * \frac{3}{1} = \frac{1}{1} * \frac{3}{1} = \frac{3}{1} = 3$$

$$\frac{97}{133} * \frac{19}{25} = \frac{97}{7} * \frac{1}{25} = \frac{97}{175}$$

$$\frac{8}{17} * \frac{85}{32} = \frac{1}{17} * \frac{85}{4} = \frac{1}{1} * \frac{5}{4} = \frac{5}{4} = 1 \frac{1}{4}$$

$$\frac{45}{15} * \frac{23}{69} = \frac{3}{1} * \frac{23}{69} = \frac{3}{1} * \frac{1}{3} = \frac{3}{3} = \frac{1}{1} = 1$$

$$\frac{23}{22} * \frac{6}{10} = \frac{23}{22} * \frac{3}{5} = \frac{69}{110}$$

$$\frac{2}{13} * \frac{27}{3} = \frac{2}{13} * \frac{9}{1} = \frac{18}{13} = 1 \frac{5}{13}$$
